AI-Powered Drone Security Solutions.

5 SEC launches in under 5 seconds

20+ ACRES patrols 20 to 200 acres per mission

HD VIDEO delivers HD and thermal video day or night

24/7 MONITORING monitored 24/7 by GoVeriified SECURE SOLUTIONS

ENHANCED PROTECTION

HOME ▪ JOB SITE ▪ COMMERCIAL PROPERTY

Call to Schedule a Live Demo.

SkyGuard autonomously surveys your property when triggered by motion sensors, cameras, or a pre-defined schedule. Designed for year-round operation, it uses advanced AI to detect people, vehicles, and animals—tracking movement and following targets in real time.

With instant alerts, you gain access to live aerial views, allowing you to assess situations immediately before dispatching a guard or contacting authorities. GoVeriified Secure Solutions provides real-time flight monitoring to deliver the right response for every level of threat. SkyGuard also performs routine checks of key areas, verifies normal conditions, and automatically logs each mission.

After completing its patrol, SkyGuard returns to its Hive to recharge—ready to deploy again within minutes, rain or shine, 24/7.
